TNA PRESIDENT'S LETTER

Kirk Menzer

As you know the TNA currently sponsors only one show a year. The TNA show in Houston in May. The Board of Governors, over the last year, has considered co-sponsoring a second show in conjunction with a club show. Many ideas were expressed and considered. The TNA basically hoped to find a club to accept responsibility to help organize and oversee a show traveling to different Texas cities for five years. The members of the club in the city in which the show was to be held would man this show. Unfortunately the substantial commitment required made it understandably difficult for any club to accept the challenge.

At the recent Houston Club show I was approached by Don Bailey, one of the founding directors of the new Mexican Numismatic Association, to see if the TNA would be interested in co-sponsoring an international coin show in Texas. Our preliminary discussions were encouraging and the Houston Coin Club has invited the TNA and the Mexican Numismatic Association to cosponsor its winter show and enlarge it into an international show. This show will be held in the Astro Hall adjacent to the Astro Dome next year. This proposal will be discussed at the TNA Board of Governors meeting at the TNA show in May. Your comments are welcome.

We would like to enlarge the benefits of membership in the TNA. However, the limited number of members and low dues structure requires that most activities be staffed with volunteers and cost kept to a minimum. This is both a blessing and an obstacle. Our volunteers are very motivated which is wonderful but as in most organizations a few are required to carry a lot of weight. We have also learned how to achieve a lot with limited resources. If you have an idea how the TNA can better serve its members or you are willing to give some of your valuable time to the TNA or some of its sponsored activities, please call or write me or your local Governor. The TNA is your organization and we need your input.

COINS FOR A's
Jim and Barbara Medford

Interest in the Coins for A's program continues to pick up, as we received a number of requests following the end of semesters in schools around the state. To date, we have received requests from 55 students and sent out nearly 80 packages of coins. Since we have changed our method of mailing, i.e., to bubble-pack envelopes, with computer-printed labels and postage affixed at the Post Office, we have had no reports of unfilled orders. We hope this means the problem of unhappy students who requested but did not receive coins has been, if not solved, at least greatly improved. This does not come without cost, however. The average expense of mailing a group of coins to one student is about \$1. So far, cash contributions to the program from coin clubs and individual collectors around the state have amply supported this cost. In May, we will be presenting these figures to the Board of District Governors of TNA, and ask them to consider whether the results so far justify the costs.

On the same subject, we continue to be dependent on donations of coins to fill the "orders" of young people asking to be rewarded for their good grades. For those who request foreign coins or make no specific request, we have many, many coins available to send out that have come from all over the world. However, a larger percentage of the students not only have specific requests, but they tend to request US coins. Still, we are sometimes unable to find coins in our inventory to meet some requests. We most often are asked for Buffalo nickels, Barber coins of any denomination, Franklin halves, US Type coins and Indian Head pennies. If you happen to have some of these, or any US coins, to spare, we would appreciate their donation and so will the young people who subsequently receive them. And, as always, we thank everyone who has contributed money, coins or good advice to the Coins for A's program.

A Few Words From The Editor

Mike Grant

This issue has the convention schedule, the book auction, and exhibits listed. It is important for everyone to know that we have sold out the show again this year to full capacity of 104 tables. This should be an exciting show, as most of you know the coin market is picking up and those people that are going to shows are buying those important coins or notes for their type sets. We should have a very good turn out with school out and tax season over with. I look forward to seeing all of you at the convention in Houston.

TNA EXHIBITS

The TNA will have the front lobby filled again this year with exhibits of all kinds. We will have adult, junior, and non-competitive exhibits from all over the state. This should be a lot of fun! The winners of the exhibit competition will receive their awards on Sunday, May 31st at the Awards Breakfast, then they may display their awards on the exhibits for all to see.

If you would like to participate in the exhibits this year please call Ralph Ross, Exhibits Chairman at (713) 980-0971, or write him at 3302 Williams Glen, Sugar Land, TX 77479.

MEXICAN GOLD

by Henry A. Yeats

So far as the records that I am able to get on the minting of gold in Mexico, it first started in 1537, and was minted only in the City of Mexico, designed from coins of Spain, Portugal and Peru.

The first coins were known as Scudos, and not Pesos, and were only minted in 8 Scudos, which were worth about \$2.00. Beginning under the reign of Charles II, and even further back, there were no pictures on the coins, only designs.

In 1712, Phillip V made the same coin with a slight deviation in design, but still no pictures. However, Phillip V, in 1732, designed the first gold coin with his picture on the front, and also, the first print of the 4 Scudos, 2 Scudos, and the 1 Scudo.

Ferdinand VI came along and changed the designs of the coin slightly by putting the Order Of The Fleece on the reverse side, and his picture on the front-this was in 1747. There was very little change in the minting of gold from that date, following through the various Kings, including Ferdinand VI, Charles III, and etc. up until 1813, at which time not only the mint of the City of Mexico was in operation, but a mint was opened in Guadalajara, and at that time the first bust of Ferdinand VII was placed on a coin, without the Order Of The Fleece being shown on the opposite side.

In 1823, the Republic of Mexico made its first coin, which was the 8 Scudos, with the printing "La Libertad En La Ley" on the front, and on the reverse the "Republica Mexicana" was printed. This was immediately after the Liberation of Mexico from foreign rule, however, it was in this period in which, in addition to the coins mentioned above, the 1/2 Scudos were minted.

From 1824-1873, 12 mints were opened up in Mexico - some of the most famous were Mexico City, Chihuahua, Zacatecas, and Tlalpam. Only one gold coin was minted in the Rule of Maximilian, however, he was the first person to change the coin from the Scudos to the Pesos, and this was minted in 1866, known as the 20 Pesos. Immediately after that, in 1870, the Republic was restored, and then it was that the Eagle On The Cactus was put on the reverse side, and the Head of Hidalgo was put on the obverse side. At the same time, 7 of the 12 mints were closed, and the coin at that time was in the 20-10-5-2 1/2 and 1 Pesos.

In 1906, there was printed on the reverse side of the Mexican Pesos the words "Estados Unidos Mexicanos" and the 20 Pesos were changed on the obverse side to show the Aztec Calendar.

There is no reason known why this coin should have the Aztec Calendar, except that a committee was appointed, and the Director of the mint, Valdez, suggested its use, for the reason that it was so typically Mexican, and it was unanimously adopted at that time.

In 1921 the first Commemorative 50 Pesos gold coin was minted in Commemoration of the 100th Anniversary of the restoration of the Republic of Mexico. This is a very beautiful coin, and on the face of it two dates always appear. First, on the left hand side of the obverse, you see the date 1821, and on the right hand side, you will see the date 1921. However, between the years 1921-1931, the date varied, because each year on the right hand side the date of the coin was printed rather than the 100th Anniversary. This is the coin that you see so much in use today, with the picture of Liberty, rather than Hidalgo on the obverse, and the famous Eagle On The Cactus, with the long head, on the reverse.

It might be interesting to note that this coin was not minted after 1931, insofar as the mint is concerned, however, some of the coins have been struck without having been approved by the Mexican Government, just as a matter of keeping people from spending paper money, and permitting them to save money in the use of this coin.

In 1943, monetary currency became so scarce in Mexico, on account of the people not having any confidence in paper money, that the merchants sent their clerks even out in the streets to buy coins from anyone they could secure them from. So, in this year, they got the idea of issuing a piece of gold, thinking the people would have confidence in it, and turn loose of their nickels. This did not set so well with the Mexican people, however, because when the coin was struck it did not have the value on the face of it, and the people became so suspicious that it was necessary to change this coin. This coin was nick-named Tejos, meaning round-flat discs, such as is used in pitching dollars, or in pitching at a crack. So, in 1945-46, the values came back on the coin, and it was officially approved by the mints, but not by the government.

All of the coins that have recently been issued, with the exception of the Commemorative coins, have Hidalgo's portrait, and are commonly known as Hidalgos. Media Hidalgos, and Cuarto Hidalgos, meaning dollar, halves, and quarters. There are a few Mexican gold pieces, which do not show in the 20 Pesos, or The Aztec Calendar, because there was a Revolution in Oaxaca in 1915, and the coins that you find minted from this portion of Mexico have 20 Pesos printed on the one side, and the Bust of Juarez printed on the other side; the value, however, was only 0.175 Oro, or about 20 per cent less gold than the value of the present 20 Pesos. At the same time, Juarez also produced a 60 Pesos gold piece, with his picture on the front, which is very rare today, as the current price on the 60 Pesos is \$300 in American money.

During the last 6 months, gold in Mexico has increased in its exchange value, and the 50 Pesos, which used to be worth about \$44 in American gold, according to contents, is now worth approximately \$50 in American money. In order to prevent so much of the money getting out of Mexico, there is an embargo on the shipment of gold out of that country, which puts an added premium on Mexican gold in America, as the 50 Pesos Commemorative dollar is now listed in the Library of the Numismatic Association at \$55.

TREASURE OF XERXES HUGE HOARD OF SILVER BURIED CIRCA 450 BC

And now, as he looked and saw the whole Hellespont covered with the vessels of his fleet and all the shore and every plain about Abydos as full as possible of men, Xerxes congratulated himself upon his good fortune, but after a little while he wept. His uncle Artabanus, who was with him at the time, asked about this strange expression of contradictory feelings. "I was thinking," Xerxes replied, "and it came into my mind how pitifully short human life is."

Herodotus II, 45-46

This moment in history described by the ancient historian Herodotus was perhaps one of the greatest military undertakings in history given the current technology. The accounts relate that the great Persian king Xerxes amassed an army of 1,700,000 men for his invasion of Greece in 480 BC. An entire city was needed to feed the army just two meals, and an entire river ran dry when they drank. And huge quantities of silver coins were struck to finance the massive military payroll and all the expenses of huge military operations. The Hellespont was the water way at least a mile wide connecting the Black Sea and the Mediterranean Sea and separating Europe from Asia Minor. In order to move his vast army Xerxes commanded his engineers, mostly Phoenicians and Egyptians, to build a bridge. To do this 674 ships were tied together in a double row and planks were laid over the decks. The planks were covered with brushwood and dirt to create a road. Xerxes invaded Greece and very nearly succeeded in conquering the civilized world.

As the Persians moved through northern Greece they were met at the pass of Thermopylae, where the 300 Spartans led by Leonidas fought to the last man, and successfully delayed the Persian advance long enough for the Greek cities to prepare. Although Xerxes captured Athens, the Athenians had fled with their fleet to the nearby island of Salamis where the Persian fleet was defeated by the more experienced Athenian navy. The army of the allied Greek city-states, led by Spartans was able to defeat the Persian army at Plataea in 479 BC and effectively ended Xerxes attempted conquest of Greece.

Xerxes is long dead, and his observations on the brevity of human existence still applies today, even though we average more than twice the usual life span of the ancients. By collecting, studying and handling the coins of the ancients our human experience can be greatly enhanced. In our hands we have relics of great kings who commanded huge armies to conquer kingdoms now vanished. These huge treasures of precious metals that are now unearthed from the paths of these ancient armies are sometimes the only tangible links that we have. Now you can expand your horizons to the Fifth Century BC with a modest contribution to the Jonathan K. Kern Co.

This hoard of silver was composed of over 100 pounds of struck sigloi. A single siglos averages 5.55 grams of nearly pure silver and depicts the Great King of Persia as an archer in an action pose. Some interpret his posture as the archaic art expression of running, and others describe him as kneeling. These coins were struck with a heavy sledge hammer on very thick oblong planchets, much like silver bullets, with a hand held upper die depicting the archer. The lower die was probably imbedded in wood or stone to secure it. The lower or reverse die of these coins, was used in the manner of the very first coins ever produced in the world. This lower die was a roughly rectangular raised metal lump, appearing in hundreds of mysterious variations. The raised reverse die creates an incuse impression for the backs of the sigloi. Museum studies now in progress utilize the reverse incused impressions for quick die referencing, since the obverse impression of the Great King is frequently off center. These coins represented a huge explosion in the production of coined money, and were struck rapidly to fill the need for pre-weighed silver authorized by a powerful ruler.

The Great King is shown holding a spear and a bow on the sigloi attributed to the Asia Minor mint of Sardis, in Lydia and a bow and a dagger on the other type which is possibly all from a different mint further south. Frequently they are countermarked with tiny punches by merchants of bankers, possibly to attest to the quality of the silver. We can sell either type in a nice fine grade for \$37 each, a nice very fine for \$77 each or a nice extremely fine for \$277 each. The raised obverse always grades much less than the incused reverse so our nice fine will usually have an extremely fine reverse.

Discounted pair price, one of each type in nice Fine for \$70
Buy your own mini hoard of Persian sigloi in nice Fine, with all different reverses in extremely fine, 30 coins for \$925
In nice very fine, one of each type, only \$150 for the pair
For extremely fine coins, no discounts, call first to confirm availability

Clements Coin Club, (The C-Cubed)

In the Dec 4th issue of the C-Cubed, President Bahvin Shah writes about the upcoming Clements Coin Show and Auction on Dec 19th. This entire show is strictly for Young numismatists. Anyone wishing to go to the Fun show must have an exhibit at this show. The auction is to help raise money to go to the Fun show. Editor Gina Yiu writes that members can earn points by writing articles in the club newsletter. Each year the students are given a point system to see who will achieve the highest number of points. Steven Roach wrote a good article on "An Era of Change", about the Jefferson nickel, & Lincoln cent. There is another article on the Famous American Collectors, about Matthew A. Stickney.

In the Dec 11th issue there is an interesting article on "The Cost of Making Money". There is another fine article on "Cents" and is illustrated showing different large cents. There is also a multiple choice game and a hidden word game that are very creative. Next is a list of the students that will go to the Fun show in Florida, it looks like 23 students qualified.

The Dec 18th issue states that there are 1,674 members of the Clements Coin Club, this is one of the largest clubs in the country and certainly the largest YN club. Sam Jacob writes an article on the trip she took to Colorado and the ANA Summer Conference, titled "The Greatest Week of My Life".

The Jan 15th issue has letters from students that went to the Florida Fun show and a letter from Gene E. Hynds, the Exhibit Chairman of the FUN show telling the students about exhibiting and what to look for and do. The members seem to have taken this to heart.

The Jan 29th issue is also filled with interesting Florida reports. There is a good article on "The Lincoln-Gardner Token" by Bill Fivaz, and at the end it states that the article is completely fictitious and that the author wanted to provide a little interest in the unusual token. There is also a two page article on National Coin Week.

The cover of the Feb 5th issue has a group picture of the students and supervisors that went to the Florida Fun show. There are also a number of pictures and articles inside this issue. After reading these articles, it shows why Ralph Ross has the largest YN club in the country. These YN's really love the hobby and show it. Ralph is to be congratulated for the hard work he puts in!

The Clements Coin Club is our young numismatists club from Clements High School in Sugarland, Texas, also the largest YN Coin Club in the Country.

--Sini Jacob, Club Secretary

Greater Houston Coin Club, (Double Shift)

Ralph thanked the club for the \$300 donation to help cover the cost of the trip for the 22 YN's and 2 senior members. He also asked the club members to exhibit at the 1998 Money Show. Francis Townsend discussed the status of the Money Show and the volunteers. Byron Paris spoke about the TNA Coin Show in May. There were 29 exhibitors for the Money Show.

Thirty-two members and guests attended the Feb 19th meeting. Francis Townsend reported on the 1998 Greater Houston Money Show. Eighty-one tables were rented and the majority of the dealers were satisfied with the outcome. Some visitors had problems parking and the garage rates were expensive. On the whole everyone was happy with the way the show went. A J. Fickessen announced that the installation ceremony for the 1998/1999 officers will be April 18th at the Warwick Hotel. The ceremony will be combined with the installation of the Bellaire Club officers. The nominations are: President - Wolf Biedenfeld, Vice President - Jerry Clemens, Secretary - Chris Johns, Treasurer - Tom Fooshee, Board members - Jerry Chester, Vernon Thompson, Jerry Vaughan. Ralph Ross gave the results of the numismatic exhibits at the show and the winners.
